

The information below should be read in conjunction with The Robinswood Academy Trust Strategic risk assessment and Moat School Operational Plan

These plans are based on the latest government guidance issued and details the trust's response to the systems of controls based around the two key areas: **protective measures and response to any infection.**

<b>Protective measures that schools need to follow (detailed in the guidance)</b>	<b>Response to infection</b>
<ol style="list-style-type: none"> <li>1. A requirement that people who are ill stay at home</li> <li>2. Robust hand and respiratory hygiene</li> <li>3. enhanced cleaning arrangements</li> <li>4. active engagement with NHS Test and Trace</li> <li>5. formal consideration of how to reduce contacts and maximise distancing between those in school wherever possible and minimise potential for contamination so far as is reasonably practicable*</li> <li>6. Where necessary, wear appropriate personal protective equipment (PPR)</li> </ol> <p>*this will be achieved by:</p> <ul style="list-style-type: none"> <li>• grouping children together</li> <li>• avoiding contact between groups</li> <li>• arranging classrooms with forward facing desks</li> <li>• staff maintaining distance from pupils and other staff as much as possible</li> </ul> <p><b>Numbers 1 to 4</b> must be in place in all schools, all the time.  <b>Number 5</b> must be properly considered and schools must put in place measures that suit their particular circumstances.  <b>Number 6</b> applies in specific circumstances</p>	<p>Schools must:</p> <ol style="list-style-type: none"> <li>1. engage with the NHS Test and Trace process</li> <li>2. manage confirmed cases of coronavirus (COVID-19) amongst the school community</li> <li>3. contain any outbreak by following local health protection team advice</li> </ol> <p>All of the above must be followed in every case where they are relevant.</p> <p>Schools will maintain daily registers to track children who have been in school, details of staff working with different groups and any mixing of groups so that PHE can provide definite advice on who must be sent home if there is a confirmed case in school where there has been possible close contact.</p> <p>Those who have been in close contact with a person who has tested positive must be sent home to isolate for 14 days.</p> <p>Household members of contacts sent home do not need to self isolate unless that person develops symptoms.</p>

- Children will be organised into 'bubbles' of classes or year groups and will remain in these groups wherever possible. However, there may be some wider mixing of groups, examples of this include, the organisation of teaching groups and before and after school care. Teachers and staff can operate across different classes and year groups. Staff that move between classes and year groups, to keep their distance from pupils and other staff.

Maintaining distance from other people is a preventative measure that will be encouraged so far as is reasonably practicable.

**A record must be kept on a daily basis regarding which children and adults have been part of the bubble/class.**

**All the measures in this assessment are aimed at reducing transmission risk.**

<p><b>Prevention measure 1</b></p> <p><b>Response measures 7,8,9</b></p>	<p><b>ADULTS AND CHILDREN DISPLAYING SYMPTOMS OF CORONAVIRUS</b></p>			
<p>Contracting and spreading of infection</p> <p>Contact with persons suffering from coronavirus</p>	<p><b>Any children, staff or parents displaying symptoms of coronavirus should not come into school and should self - isolate for 10 days.</b></p> <p><b>Members of their household should self-isolate for 10 days from when the symptomatic person first had symptoms</b></p> <p>All staff and students who are attending an education or childcare setting will have access to a test if they display symptoms of coronavirus, and will be expected to get tested if they are displaying symptoms.</p> <p>Where the child, young person or staff member tests <b>negative</b>, they can return to school and the other household members can end their self-isolation.</p> <p>Where the child, young person or staff member tests <b>positive</b>, the rest of their class bubble (and staff) should be sent home to self-isolate for 10 days.</p> <p>If the test is <b>positive</b>, the other household members of that <b>wider class or group do not need to self-isolate unless the child, young person or staff member</b> they live with in that group subsequently develops symptoms.</p> <p>If someone in the class group that has been asked to self – isolate develops symptoms themselves they should follow the ‘stay at home guidance’ and get a test.</p> <p>If the test delivers a <b>negative</b> result they must remain in isolation for the remainder of the 10 day period</p> <p>If the test is <b>positive</b>, they should inform the setting immediately and should isolate for at least 10 days from the onset of their symptoms. The remainder of their household should self isolate</p>	<p>In line with government/trust wide agreed control measures</p>	<p>All school community to adhere to this</p> <p>Parents to notify school if their child develops symptoms and details of anyone they have been in touch with who has tested positive</p> <p>HOS to liaise with the central team to keep them informed of potential cases.</p>	<p>Parents to be encouraged to communicate in a timely manner. Attendance officer to first day call.</p>

	<p><b>for 10 days from when the symptomatic person first had symptoms</b></p> <p>Schools must engage with NHS test and track process and make contact with Public Health England for advice regarding confirmed or suspected cases</p>			
<b>Prevention measure 1</b>	<b>PROCEDURES IF A CHILD OR ADULT DISPLAYS SYMPTOMS OF CORONAVIRUS IN SCHOOL</b>			
<p>Contracting and spreading of infection</p> <p>Contact with persons suffering from coronavirus</p> <p>Disposal of waste that may be contaminated by a coronavirus sufferer</p>	<p><b>If a child displays symptoms they will be sent home immediately</b></p> <p>When waiting to be collected the child should wait in a room where they can be isolated behind a closed door (if possible), depending on the age of the child and with appropriate adult supervision if required. The Hive</p> <p>If possible, a window should be opened for ventilation.</p> <p>If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>If a person becomes ill in a shared space, the space should be cleaned using disposable cloths and household detergents, according to current recommended workplace legislation and practice.</p> <p>If the child needs to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>PPE should be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs)</p> <p>Staff to wash their hands after caring for a child with symptoms. Should staff have close hands-on contact they should monitor themselves for symptoms of possible COVID-19 over the following 10 days.</p>	<p>In line with government/trust wide agreed control measures</p> <p>The Den will be prioritised for the symptomatic child</p> <p>The rest of the bubble to thoroughly wash hands, arms and faces and then move to their outdoor space.</p> <p>Windows and doors to be left open and a deep clean of the area</p>	<p>Adult from 'bubble' to remain with child to minimise spread to other groups involving another adult</p> <p>Admin team to contact parent</p> <p>HOS to communicate with central team and the families within the bubble</p> <p>Cleaner to deep clean the indoor space</p>	<p>Head of School/ member of SLT MUST be informed if a child is sent home with suspected symptoms</p>

	<p>All waste that has been in contact with the relevant person, including used tissues, and masks if used, should be put in a yellow hazard bag and placed in the hazard bin for disposal.</p> <p>Additional hazardous waste bins to be provided throughout the site for waste disposal of tissues and paper towels</p> <p>Safe disposal of used PPE (in line with above)</p>
